

# Miniflex<sup>®</sup>

## Ring & Slit Kit

### Features & Benefits

- Easy to change size trays, designed for compatibility with Miniflex<sup>®</sup> cables & microducts
- Provided pouch offers easy storage of tool and size trays
- Compatible with TuffDuct<sup>®</sup>, allowing banana peel cuts without removing the tone wire
- Requires no regular maintenance and should not need replacing if used under normal conditions

### Overview

The Ring & Slit tool kit allows installers to perform rotary-style and ‘banana peel’ cuts on the full suite of Miniflex cabling and microduct products, ranging from outside diameters of 3mm to 10mm. Because of its versatility in cutting styles and size compatibility, this kit allows technicians to carry and maintain fewer tools.
